

Andile Mashiane

3D ARTIST | ANIMATOR | ILLUSTRATOR | MULTIMEDIA DESIGNER

PROFESSIONAL SUMMARY

3D Artist, Animator, Illustrator, Multimedia Designer, and Technical Generalist with experience across modelling, retopology, UV mapping, texturing, rigging, animation, motion design, illustration, compositing, graphic design, and digital content production. Experienced in commercial advertising, multimedia, and feature animation environments, with a track record of translating creative briefs into production-ready visual assets. Proficient in Autodesk Maya, Blender, Substance 3D Painter, and Adobe Creative Cloud. Collaborative and solutions-driven, with strong technical troubleshooting, asset optimisation, quality control, and deadline-focused production skills.

CORE COMPETENCIES

- **3D Art:** High- and low-poly modelling, character and prop modelling, retopology, topology optimisation, UV mapping, texture mapping, 3D visualisation, asset preparation, and optimisation.
- **Animation and Rigging:** Character animation, keyframe animation, prop animation, character performance, character and prop rigging, skinning, weight management, deformation systems, and animation clean-up.
- **Design and Post-Production:** Illustration, graphic design, motion graphics, compositing, digital content creation, and commercial visual content.
- **Production Strengths:** Creative problem-solving, technical troubleshooting, cross-functional collaboration, independent project management, adaptability, quality control, and deadline-driven production.

PROFESSIONAL EXPERIENCE

Multimedia Artist / 3D Artist / Animator

The Boiler Room

- Create multimedia content and production-ready visual assets across 3D production, animation, visualisation, and multimedia design.
- Produce 3D models, textures, animations, and digital assets while maintaining visual quality and technical consistency.
- Prepare and optimise assets for production workflows, applying creative and technical problem-solving throughout the pipeline.
- Collaborate with multidisciplinary creative teams to deliver work aligned with project requirements, schedules, and deadlines.

Freelance 3D Artist / Animator / Multimedia Designer

Independent

- Produce 3D and multimedia content for commercial productions and contribute to feature animation projects.
- Create models, characters, props, textures, rigs, and animated content across different stages of production.
- Interpret client briefs and collaborate with production teams to deliver project requirements and production-ready assets.
- Manage multiple projects independently, adapting workflows and technical approaches to different creative and production needs.

Multimedia Artist

Sum of 21 at Etiket Advertising Agency

- Created multimedia and digital content for advertising and creative campaigns.
- Produced 3D visual assets, graphics, animations, motion design, and other digital content using 3D and Adobe Creative Cloud software.
- Supported creative concept development and collaborated with designers and creative teams to deliver work aligned with client briefs.
- Prepared and delivered creative assets within project timelines and agency production schedules.

Multimedia Intern

Sum of 21 at Etiket Advertising Agency

- Assisted with multimedia, digital design, graphic design, animation, and visual production tasks.
- Supported creative teams with asset preparation, organisation, and delivery.
- Developed practical experience with industry-standard creative software and production workflows.
- Participated in collaborative projects under the guidance of experienced creative professionals.

TECHNICAL SKILLS

- **Software:** Autodesk Maya; Blender; Substance 3D Painter; Adobe Photoshop; Adobe Illustrator; Adobe After Effects.
- **3D Modelling and Texturing:** High- and low-poly modelling; character and prop modelling; retopology; topology optimisation; UV mapping and layout; texture mapping; asset optimisation; 3D visualisation.
- **Animation and Rigging:** Character animation; keyframe animation; character performance; prop animation; character and prop rigging; simplified rigging systems; skinning and weight management; deformation systems; animation clean-up and refinement.
- **Design and Multimedia:** Illustration; graphic design; motion graphics; compositing; digital content creation; commercial visual content.

EDUCATION

Boston Media House

Multimedia and Animation

- Completed studies in multimedia, digital design, animation, 3D production, and creative media.

ADDITIONAL INFORMATION

- Experience spanning commercial advertising, multimedia production, and feature animation.
- Available for collaborative studio roles, freelance projects, and production-focused 3D, animation, illustration, and multimedia work.
